Sir:

Pursuant to the provisions of 37 CFR § 1.56 and §1.97-§1.98, Applicants hereby submit
five references which they believe may be material to the examination of this application and in
respect of which there may be a duty to disclose.

A list of the references is set forth on the enclosed substitute Forms 1449. A copy of
each of the listed references is supplied herewith, except for the published United States patent
application that is listed on sheet 1 of the 1449. This reference is a Notice of Allowance from a
related U.S. patent application that has been published. As this item is from a published patent
application, Applicants believe that no copies of any documents are required to support this
citation. 37 CFR §1.98. Applicants are bringing this Notice of Allowance to the attention of the
Examiner pursuant to McKesson Information Solutions v. Bridge Medical, 487 F.3d 897 (Fed.
Cir. 2007).

The four references listed on sheet 2 of the 1449 were brought to the attention of Applicants on August 11, 2008, in conjunction with an opposition filed against a related European patent.

Reference V148 is a witness statement declaring that the publication previously cited as V62 (Bradley Thesis) in the Information Disclosure Statement mailed to the USPTO in the instant application on March 21, 2008 actually has a public divulgation date of February 7, 1995, and not 1994 as stated in said previous IDS.

While the references disclosed in this Information Disclosure Statement may be “material” pursuant to 37 CFR § 1.56, submission of this IDS is not intended to constitute an admission that said references are “prior art” for this invention.

In accordance with 37 CFR § 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR § 1.56(a) exists. It is submitted that this Information Disclosure Statement complies with 37 CFR § 1.98 and MPEP § 609, and the Examiner is respectfully requested to consider the listed references.

This IDS is being filed before the receipt of a first Office Action following the filing of a Request for Continued Examination under §1.114 that was mailed to the USPTO on December 20, 2007. Therefore, no fee is due. Should a substantive Office Action have recently been mailed by the USPTO, no fee would be due, because no item of information contained in this Information Disclosure Statement was cited in a communication from a foreign patent office in a counterpart foreign application, and, to the knowledge of the undersigned after making reasonable inquiry, no item of information contained in this Information Disclosure Statement was known to any individual designated in 37 CFR § 1.56(c) more than three months prior to the filing of this Information Disclosure Statement. 37 CFR. § 1.97(e)(2).

While Applicants believe that no fee is due, the Commissioner is hereby authorized to charge our Deposit Account No. 19-3140 for any fees required in connection with the filing of this Information Disclosure Statement. This sheet is being submitted in duplicate.

Respectfully submitted,
